THE EXTENSIVE USE OF THESE WATOR L es for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-

More than 450,(800) of these watches are now speaking for themselves in the pockets of the people-a proof and a guarantee of their superiority over all others. The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders com-

petition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any

kind in the United States of which this can be These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly evory invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skill ful artisans in our works, and long use on the part of the public, demonstrated to be essential this, besides the direct influence of the heat, to correct and enduring time-keeping.
